# ONE RULE ALL

**MicMol WiFi APP** represents a fundamental redesign of lighting control. From the devices manage and lighting effect setting, every detail has been thoughtfully considered. MicMol's light has always been a uniquely product. And now it's even more powerful.

**Compatible with iPhone  
iPad HD, iOS and Android.**

# THOR & X

**Perfect octagonal diamond.** THOR is made from a whole piece of aluminum block, from the outside to the inside. It has a diamond cutting process and a perfect octagon diamond shape. The design feels straight into the eye.

**With great spectrum comes great power. THOR elevates the lighting to a whole new level of performance and adjustability. With the latest CREE LEDs and array, THOR reaches new heights in spectrum performance. The thousands adjust way by the smart controller, that means more power for what matters most: creating amazing HD full spectrum.**

# AQUA AIR

**Amazing line view.** The Aqua Air is design as a very special visual effect, the lighting seems like a slim line when you viewed from the front, it's very cool and magical. The new design and power increased which make the Aqua Air suitable for more professional aquarium growing and satisfy for the personal hobby, aquarium stores and fish, coral grow operators.

# AQUA CC

**An art of the beautiful appearance. Hey, have you see the sexy lighting, Yes, it's the Aqua CC, the revolutionary design from MicMol. We are always thinking an idea which can be Classic and suitable for Collection. This should not only a products, it's a pleasing and cool streamline CC. That's why we designed and named it as Aqua CC.**

**THOR's Pro Stand - Adjustable Bracket.** It's a beautifully designed stand that's adjustable, so you can select just the right angles for cover your tank. The stand has gear-wheel inside which have 4 angles for adjust. The gear-wheel makes it super easy to adjust the height of the stand, and suit for most of aquarium tank.

**Three way mount your Aqua Air. The Super Bracket is good for rimless and rimmed tank, easy to adjust the length, almost cover all the aquarium tank. The Pro Stand is only for rimless tank, it's stable without taking up much space. Hanging Kits is available for all the Aqua Air, make your tank more simple and elegant.**

**Aqua CC.** We always pursuing the original design from the practice and application. We made a lot of test samples before the final plan which is make sure the lighting become more simply and easily to use. It's carved from a single solid block of aluminium. Accurate fit of 3D arc glass makes the entire lamp perfect.
